‘ BUILDING DESIRES ’

On a mission to change the way we look at things, I’m Jinendra a product designer, passionate about creating products and build unique experience. I believe every object has a story to tell and experience to create. My goal is to blend functionality with aesthetics, creating meaningful solutions that not only solve problems but also build aspirations.

Power bank x Retro-engineering

Fuel is a wireless power bank inspired from retro engineering style. It effortlessly marries soft, flowing lines with sharp, edged contrasts, making a bold statement.

Individual Project

THE PROBLEM

Power banks often lack aesthetic appeal, clashing with the refined designs of modern smartphones.

BRIEF

Design wireless power banks that seamlessly integrate with smartphones, enhancing both functionality and aesthetics.

Monolithic design

Clunky Design

Bland Bricks and Disconnected Design

TEENAGE ENGINEERING

Teenage Engineering (TE) is a Swedish company known for its innovative and playful approach to product design. TE's design philosophy of "Play everywhere," reflects their belief that technology should be fun and easy to use.

Initiation Concept Solution

Mechanical...

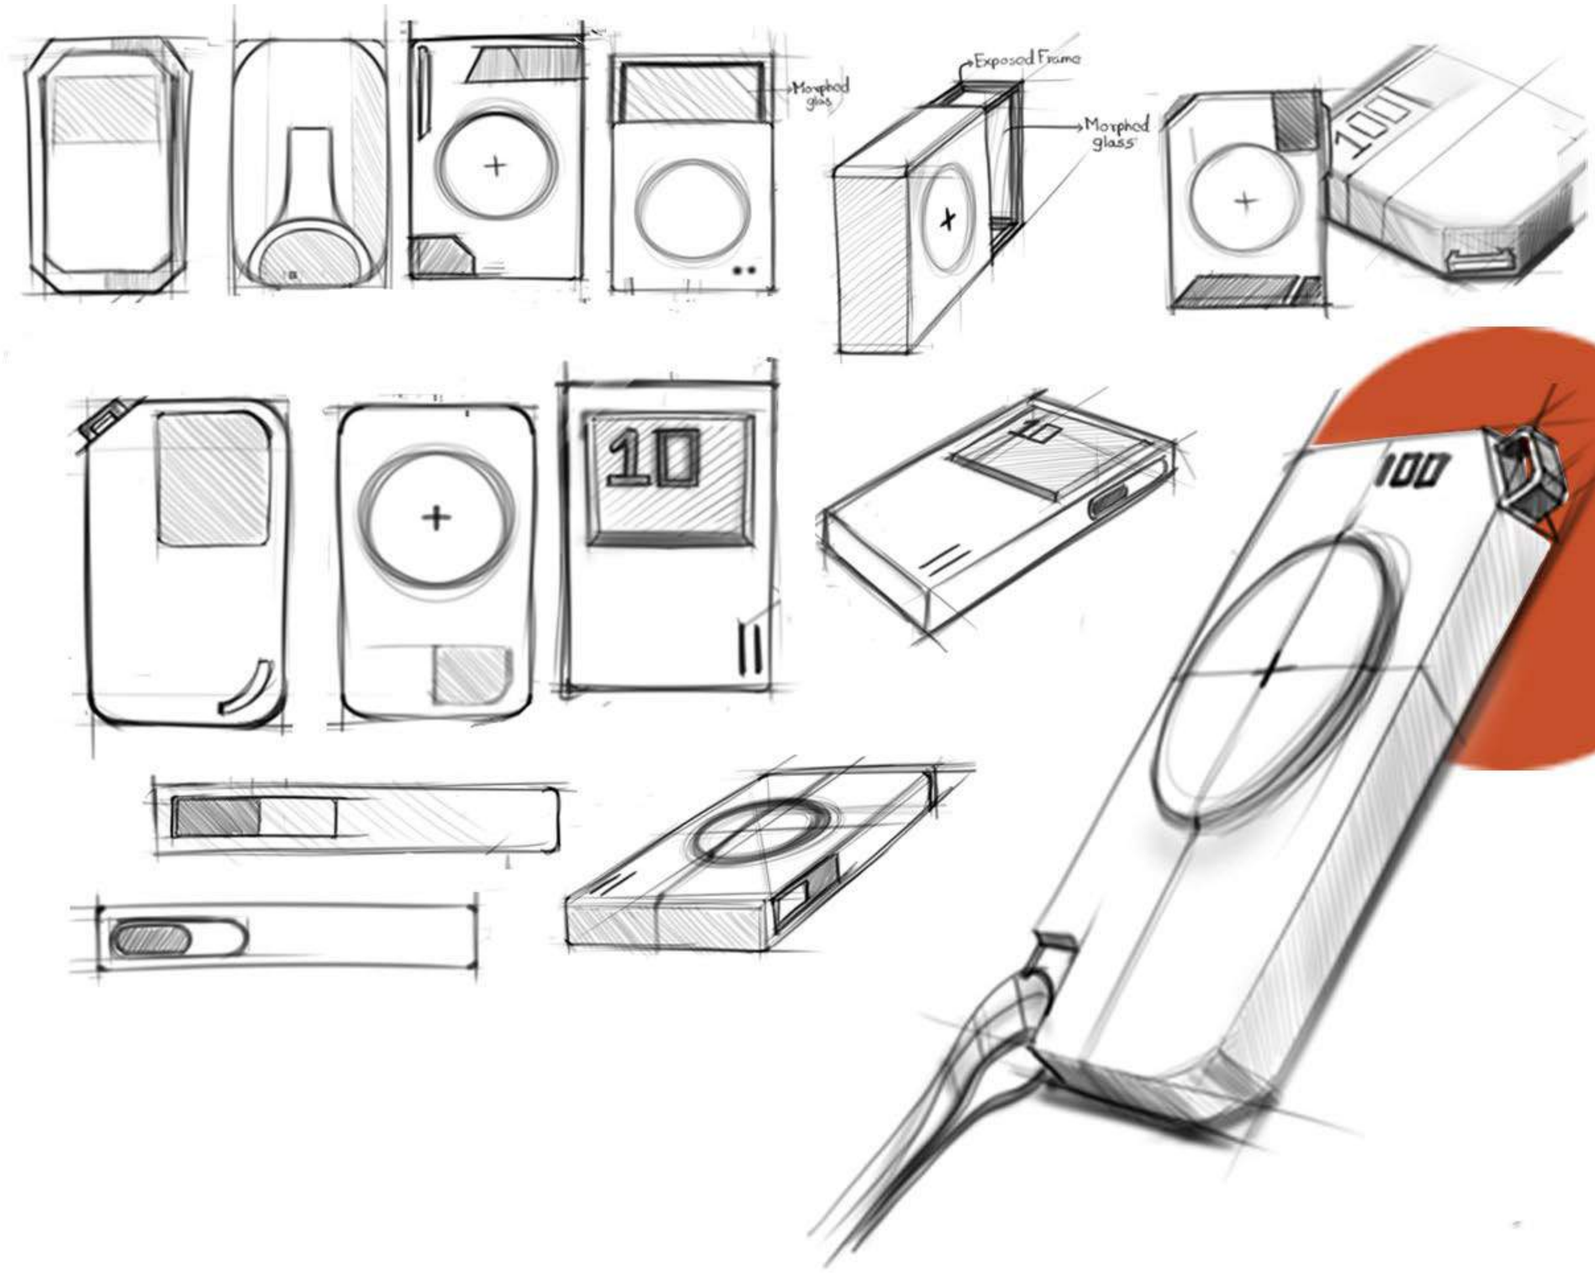

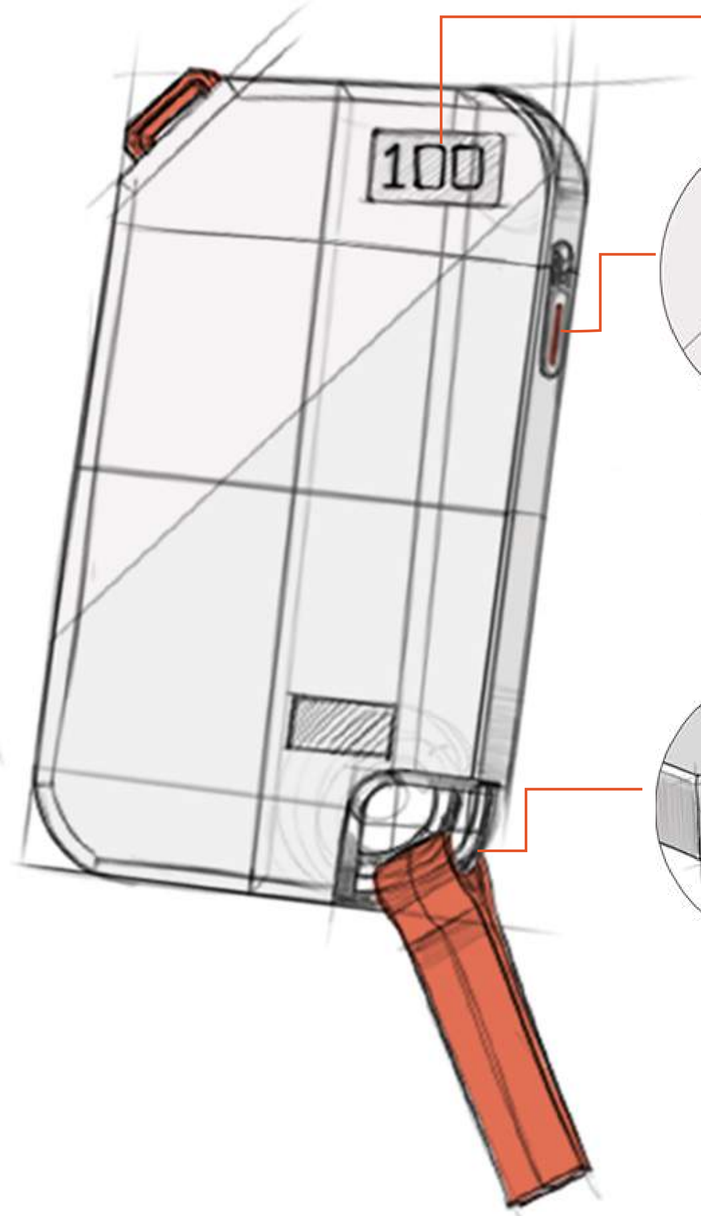

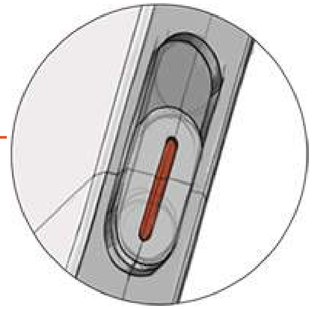

accent block

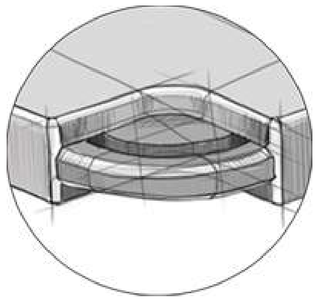

Charge Indicator

Power Switch

The tactile feedback, combined with the audibe click when sliding the switch enhances the overall user experience.

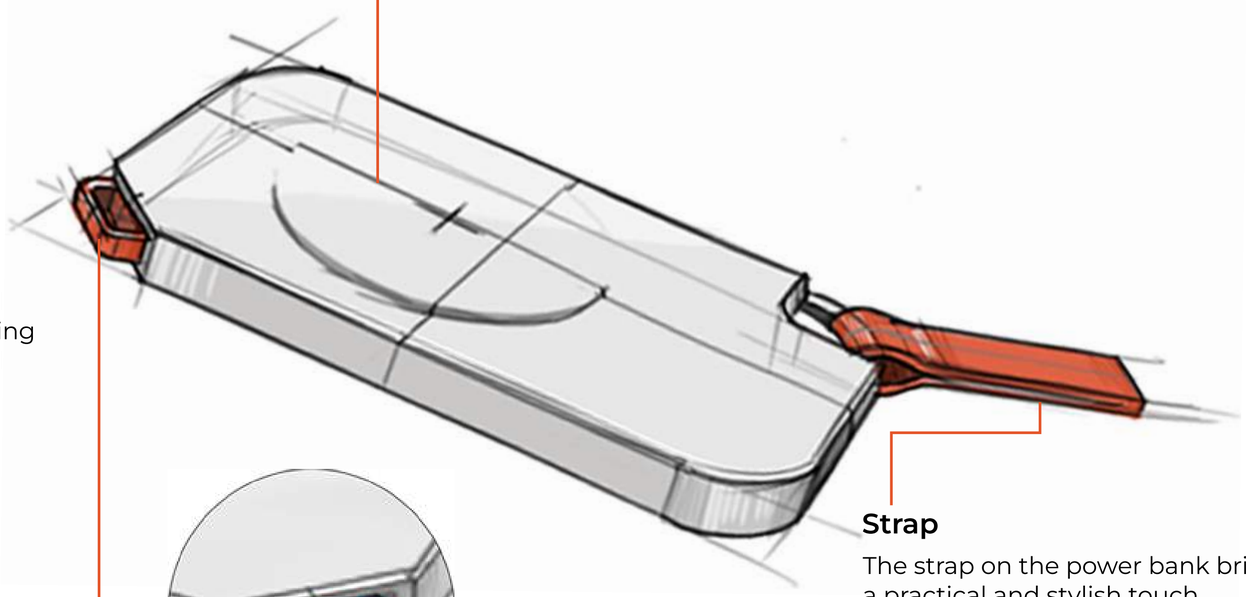

Hook for strap

The contrast in design style adds to the character of the powerbank.

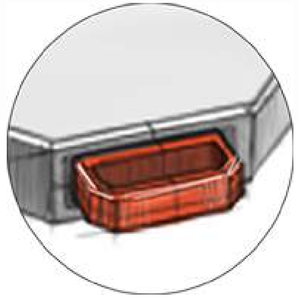

Magnetic panel

Effortless attachment to your phone for a hassle-free and convenient experience.

Strap

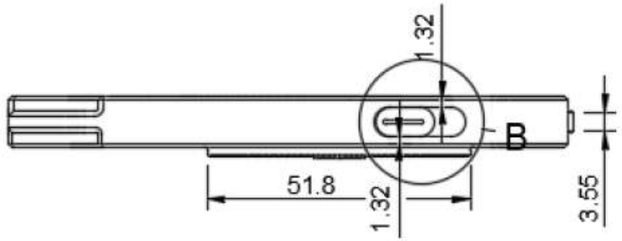

The strap on the power bank brings a practical and stylish touch.

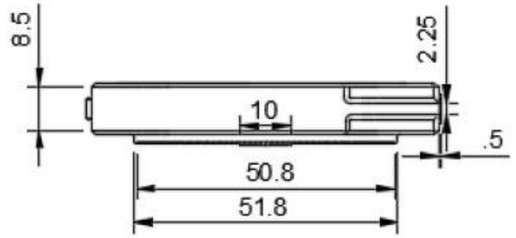

Hook

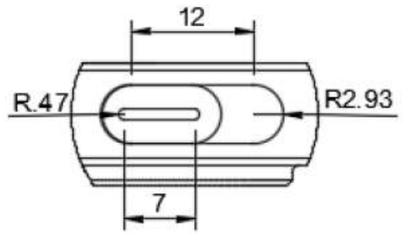

A bold style statement that adds flair inviting users, making it a conversation starter.

02 Vantage

Vantage is a versatile webcam that transforms video calls, presentations, and streaming into immersive, engaging experiences. With unmatched flexibility and precision, it enhances how you connect, communicate, and create.

Individual Project

Market research

COVID-19 pandemic has reshaped how we work, learn, and connect, pushing users, businesses and educational institutions to move online.

The global webcam market is projected to reach **$18.85 billion by 2029**, with a compound annual growth rate (CAGR) of **14.3% from 2024 to 2029.**

Key growth drivers

Remote Work

The rise of remote and hybrid work models is reshaping the workplace.

Streaming Platforms

Streaming platforms like Twitch and YouTube are gaining immense popularity.

Video Conferencing

There is a growing demand for high-quality video conferencing solutions.

Online Education

Online education and virtual collaboration tools are experiencing significant growth.

The way we work, learn, and create is changing fast

Identified problems

Fixed Camera Angles
Users are forced to awkwardly move and fit their content into the frame.

The Multi-Device Dilemma
Users are forced to buy and manage multiple devices for streaming, conferencing, and content creation.

Bland, One-Dimensional Experience
Limited camera reach make presentations and streams feel flat and unengaging.

Webcams lack **modularity and portability**, with bulky setups that take up too much space.

Cluttered Workspaces
Bulky mounts and tangled cables create visual and physical chaos.

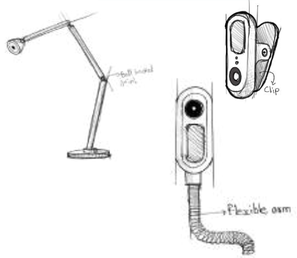

Bad angles reduces engagement, and frustrate viewers.

Pain Points

Modularity and Portability

Enhance webcam modularity and portability?

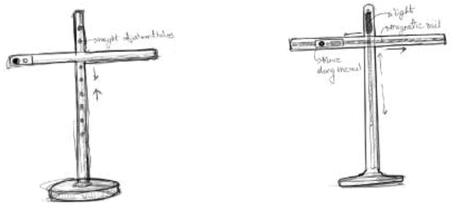

- Building blocks setup- Lego inspired
- Webcam mount that adapts to any scenario
- Compact, foldable design

Fixed camera and Bad angles

Move the camera instead of the subject?

- Auto-framing technology
- Improve user control over camera angles
  - Customizable presets for different scenarios
  - Magnetic rail mounting system for easy adjustments

Bulky Mounts and Tangled Cables

Reduce physical clutter?

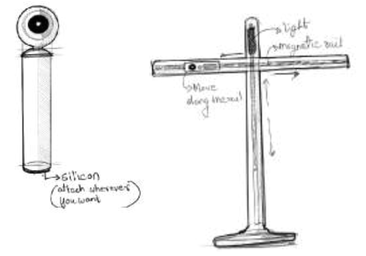

- Wireless streaming
- Common/ Hidden cables for a sleek setup
- Magnetic mounting system

Multi-Device Dilemma

Improve device integration?

- Software for seamless device sync
- Detachable webcam
- Integrate all devices into one streamlined solution

Introducing

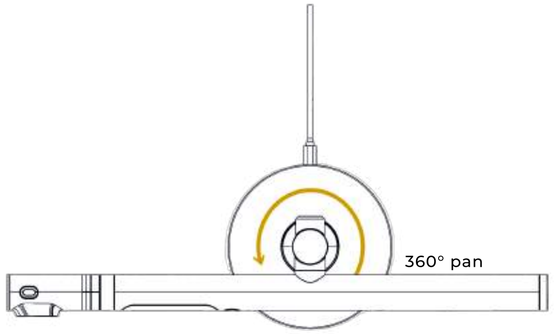

VANTAGE

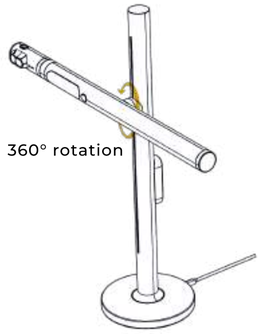

In a world where connection is everything, clarity and perspective are the keys to unlocking truly immersive experiences. Introducing Vantage, an adaptive webcam that fits seamlessly into your life with its flexible arm, integrated lighting, and dual mounts. Let’s redefine the way we connect and engage.

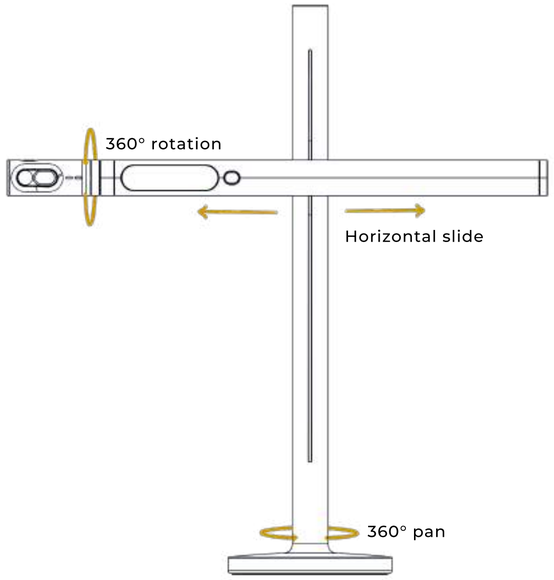

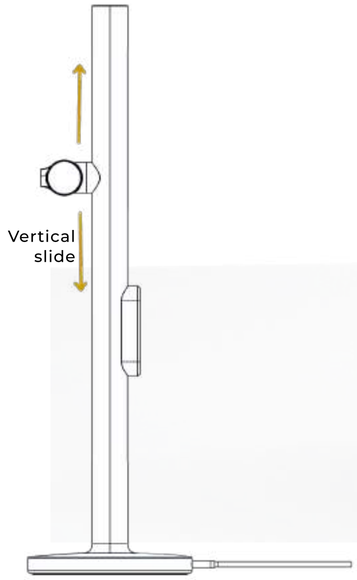

360° Freedom of Movement

Capture every perspective with seamless movements, ensuring no moment is missed

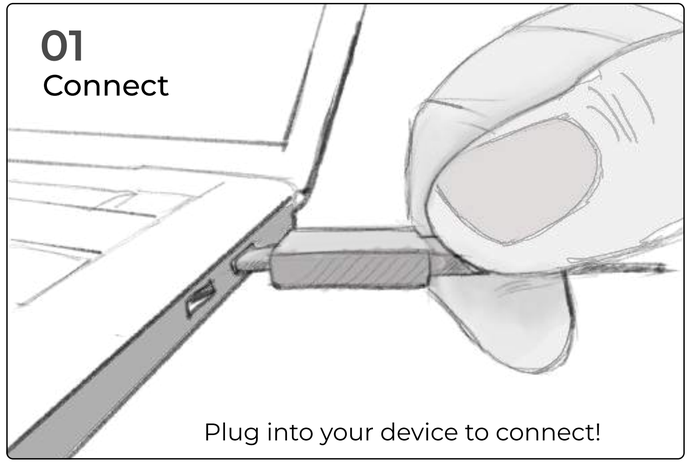

Light On/Off
Clear, bright video in a click

Slider Mechanism
Precisely adjust the camera to your needs

Vantage adapts to you, not the other way around. Effortlessly adjust height, tilt and rotation for a truly personalized video experience

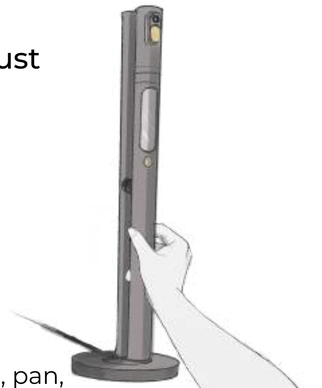

Just plug in, position, and perfect - here’s how

01
Connect

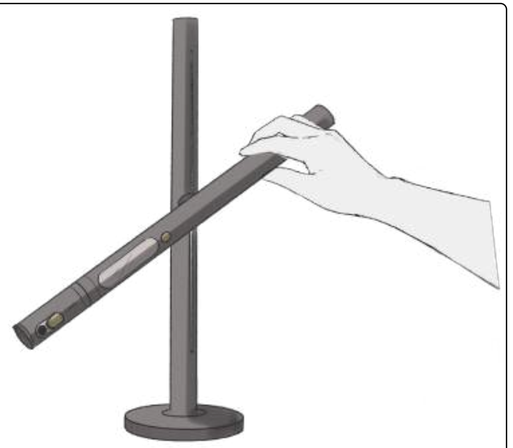

Plug into your device to connect!

02
Adjust

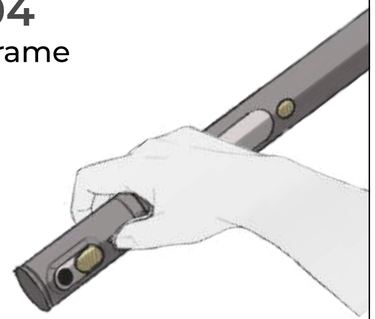

Move, pan,
tilt to find your ideal position

03
Set

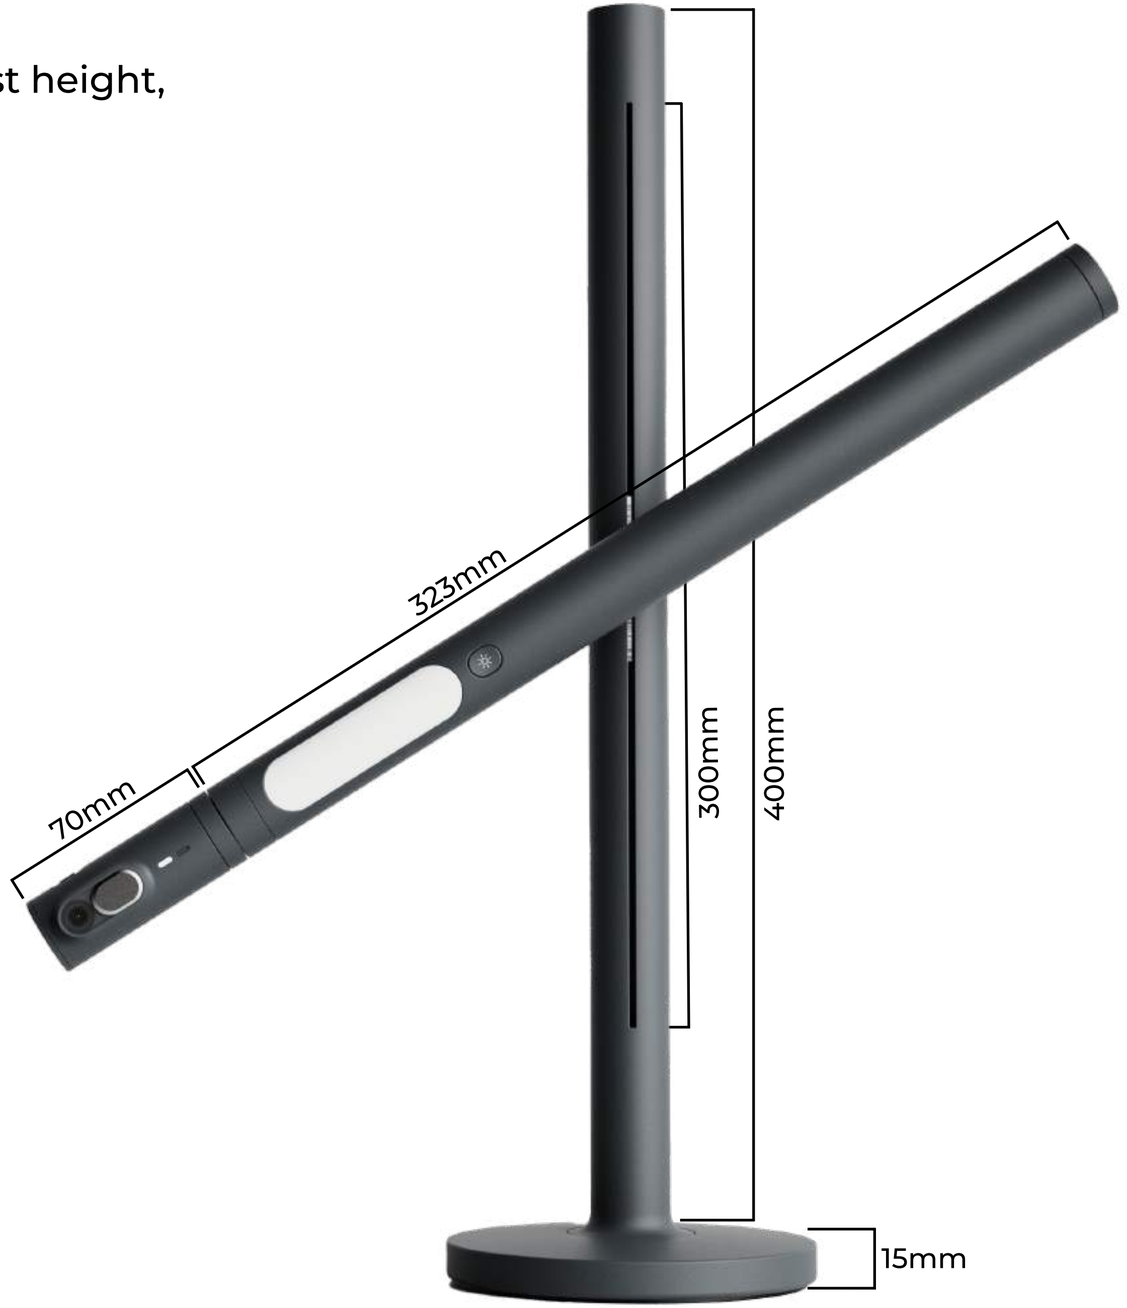

Set the webcam into your desired position effortlessly

04
Frame

Tilt to adjust for perfect framing

Pivoting Mount
Customize your angle with full 360° rotational freedom.

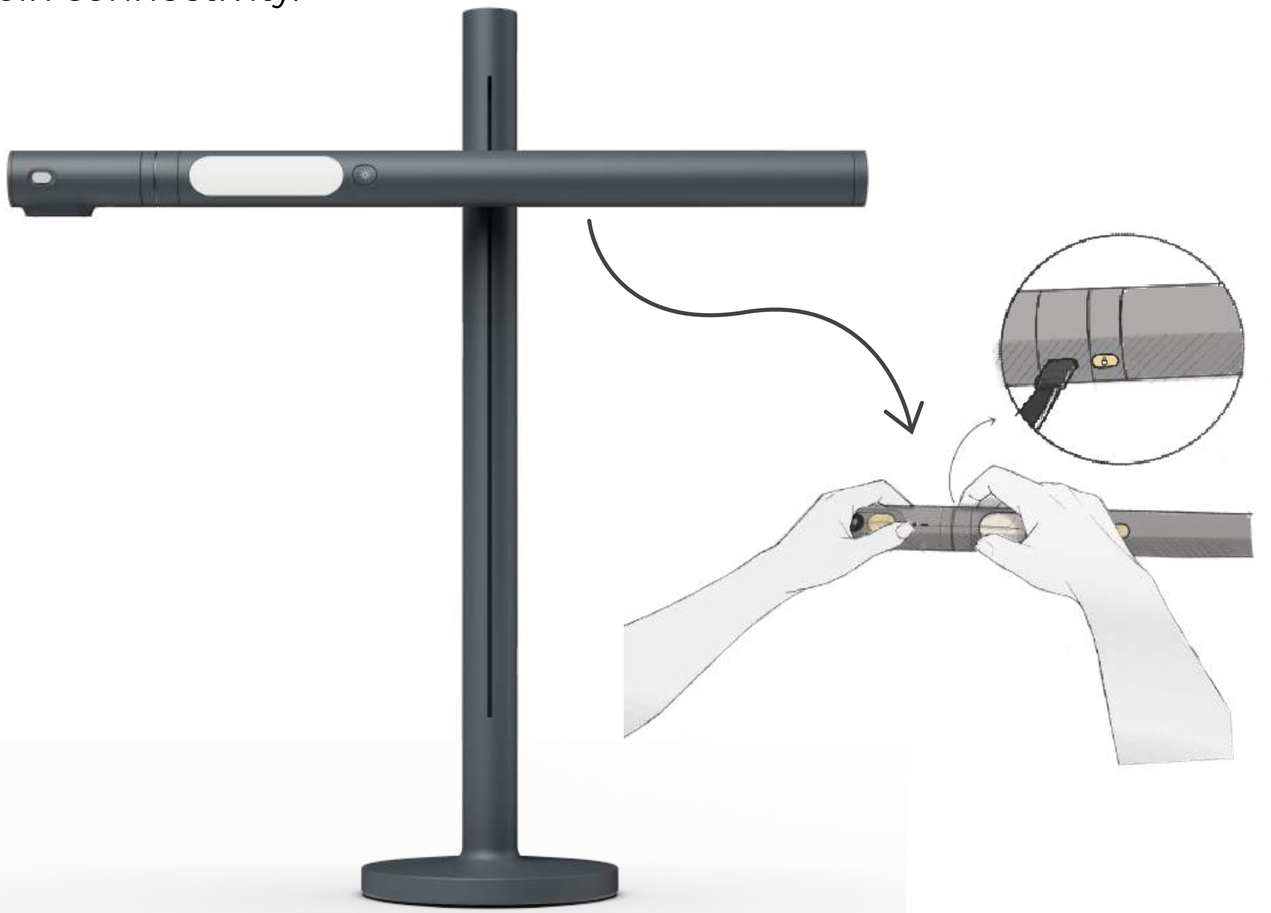

It’s not over yet, There’s more to it !

With a simple press, twist, and pull, Vantage transforms from a stand-mounted camera to a compact monitor-mounted webcam, offering seamless adaptability for any setup through secure pogo pin connectivity.

Press the button at the back, twist, and pull to seamlessly remove the webcam from the stand.

One Camera, Endless Possibilities

Initiation Concept Solution

One-Press Snap, Two-Press Record
Designed for effortless capture at any angle.

Snap Cap - Protects the rubber padding from wear and tear over time.

Soft-Touch Padding:
Secure Grip, No Scratches.

Shutter open, ready to connect

Privacy first. Slide the shutter closed

360° Precision Movement

Automatically pans and tilts to keep you in frame,
so you never miss a moment

03 Friday

Friday Heels x Louis Vuitton

Elevate your presence with the Friday shoe, a high heeled boot designed exclusively for men.

Step into a world where style know no bounds where our heels redefine the very essence of masculine elegance, setting you apart as the epitome of fashion-forward masculinity.

Team Project :

Jinendra Parakh I Pradyumn Soni I Dhruv Joshi I Shounak Ghosh

FRIDAY as a brand

Friday as a day is dynamic - the work ends and now its time to celebrate the Weekend, full of excitement and pleasure.

We as a brand want to translate this feeling through our products. We blendTraditional craftsmanship with modern techniques and use metals to create Striking highlights.

The outcome? A truly show-stopping presence that not only elevates you but also transforms your outfit into a statement of unparalleled sophistication. Experience the essence of Friday with our exceptional creations.

The Story

Originally worn by the men of royalty and the Kings

Later Men wore them to imply their upper-class status. heels became an indication of upper class status

Centuries later, heels became a fashion trend and were worn by both men and women.

Today, they are worn almost exclusively by women.

The fun of re-telling history an exciting story to tell

Why heels??

Heeled footwear exudes emotions of **unshakable confidence,** asserts dominance and sets you apart from the crowd.

What does the market say?

Sales and searches have been **rising since 2017.**
Brands like Celine, Christian Louboutin
and Balenciaga have started to enter this market.

BRIEF

Design a high heeled boot for men that seamlessly weaves together traditional masculinity and contemporary boldness , and stands as a symbol of progressive, confident fashion.
